

REMARKS

Reconsideration and allowance of the present application based on the following remarks are respectfully requested.

The restriction requirement presented herein is the same restriction requirement as was made in the parent application no. 09/235,310. It was intended that all but claims 15-20 be cancelled in this application. Through inadvertance there was no such cancellation when the application was filed. Thus, we elect claims 15-20 for examination on the merits.

An action on the merits is solicited.

Respectfully submitted,

Pillsbury Winthrop LLP
